

# December News

## **Fundraiser**

Thank you to all who participated in our fundraiser by either selling or donating. It was very successful. We have wonderful parents! Thanks again for your support.

## **Calendar**

The following are dates to remember in December:

November 30-December 1 – Vision Corps will be here to test the children's eyes.

December 14, 16, and 17 – Christmas parties. See your teacher's calendar and newsletter for more information.

December 18-January 2 – Christmas Vacation. Have a blessed two weeks off.

January 3 – Return to school

## **Food Bank Mission**

We would like to collect food for the food bank throughout the month of December. If you would like to contribute, please set everything under the small tree in the preschool lobby. The food bank looks for applesauce cups, pasta, canned goods, juice, and anything else that is nonperishable. Please make sure that the items are not out of date. Thanks for helping our community.

## **Weather**

If you have not already done this, please change out the extra clothes that are in your child's backpack. Remember to dress your child for the cold weather, as we go outside as much as we can. Our playground has trees, so remember hats and gloves.

## **Delays and Snow Days**

We follow the Solanco school district for delays and snow days. If the district is delayed 2 hours, we will meet from 11-1. Please pack a light lunch for your child for snack. The 2's do not come on delay days.

When the district is off, we are off. Please listen to the radio or TV for the call. I will also put it on the Wee Friends Facebook page. Hopefully, we will not have many delays or snow days this year.

Finally, have a blessed Christmas. Jesus came to save sinners like you and me. I thank God for the gift of His Son. Without Jesus, there is no grace and hope. I pray that all the children will come back safe and ready to learn in the new year. God bless your family and friends. Merry Christmas!

**Out of the mouths of babes:**

**Student: Are we using candy corn for math today?**

**Teacher: Yes, we are. When we are finished, you can eat the candy corn.**

**Student (at the end of the lesson): Who would have thought math could be so much fun!**
